School Assessment Interview

Name: ___________________________ Date: ___________________________

Person Interviewed: __________________________________________________

Interview your supervisor, the school psychologist, or other appropriate staff to find out the answers to the following questions about assessment procedures in your school.

What are the most common tests used in your setting?

Why have they chosen these tests?

What are they looking for with each type of test?

What role does the paraprofessional play in each type of assessment?
