Quality of Communication

Name: ____________________  Date: ____________

How well do you and the teacher who directs your work (or other licensed personnel) communicate?

When instructions are given, do you ask for clarification if you are unsure?

Have mistakes been made because of miscommunication?

Do you and the teacher who directs your work finish each other’s sentences because you understand each other so completely?

On a scale of 1 to 10, with 1 being the worst and 10 being the best, rate the quality of the communication that you feel you have with the licensed staff who directs your work.

List three things that can be done to improve this situation (or if it is a 10, list three things that make it work so well).

Talk with this person about your ideas (Remember to use “I messages” such as: “I don’t know what you mean when you instruct me to......; Can you show me what you would like me to do?”).

Decide on a date several weeks from now to re-evaluate the quality of the communication. Has it improved?

If so, in what ways?

If not, what else can be done to understand each other better?
