9.1MRW: Ability to support and reinforce the instruction of students in math, reading, and writing following written and oral lesson plans developed by licensed teachers.

9.2MRW: Ability to utilize effective developmental, age-appropriate, and culturally sensitive instructional strategies in math, reading, and writing that support the instruction of licensed teachers.

Activity: Student-centered Instruction

Suppose you are teaching two- and three-digit math subtraction problems to your students using the method of situated learning from student-centered instruction. Identify a real-life based problem that would create a meaningful and effective learning situation for your students. Also, write down any materials required to demonstrate the chosen situation.
