9.1W: Ability to support and reinforce the instruction of students in writing following written and oral lesson plans developed by licensed teachers.

9.2W: Ability to utilize effective developmental, age-appropriate, and culturally sensitive instructional strategies in writing that supports the instruction of licensed teachers.

Activity: Picture Story

1. Introduce topic for the story strips. Be prepared to use a personal example to demonstrate.

2. Read your story-strip example to student(s).

3. Give student(s) opportunity to brainstorm topic ideas. Once a student has a good idea of what to write about, have the student dictate the idea as you write it down for him to see.

4. Review the order of story with the student from the information he or she just gave you. As you do so encourage the student to read along, or attempt to read on his/her own.

5. Give the student a story strip. Talk about what action goes in each box. Allow the students to illustrate his/her story.

6. After drawing, you or the student (depending on ability) can write the words below each illustration.

7. Allow the student read his/her story several times and share with others if she/he wishes.
