Student Profile for Work-Based Learning Program

Student Name: _________________________________ Date: ____________

Career Objective: _______________________________ Program Applied For: _____________

Summarize the student’s present achievements and potential for success in the stated career objective. Make specific judgments and suggestion in each of the areas below using the data gathered from the application, cumulative school record, interview analysis, teacher recommendations, and/or specific diagnostic tests and orientation projects.

1. What type of work does the student think is involved in the career objective? Is it a realistic view?

2. What qualifications, training, and education does the student think is necessary for succeeding in this position? How did the student obtain this knowledge?

3. Does the student possess the minimal basic skills in reading, math, English, and speech for obtaining a job in this area? For succeeding in reaching the career objective? How well does the student’s interpretation fit his/her grade point average, intelligence level, and/or communication abilities? Spelling? Handwriting?

4. Does the student possess at least a minimal level of understanding of the general occupational requirements in such areas as: (a) attendance and absenteeism, (b) attitude, (c) cooperation with employer and coworkers, (d) dress and grooming, (e) types of work available for his or her abilities?

5. Does the student possess specific job skills in this occupational area? If so, what skills? What level? How obtained? Any work experience? Can he/she operate any special equipment? Does he/she have any special talents?
