Please read the following scenario and then, to your best ability, answer the questions below.

Scenario
Jonathon is a preschooler who dislikes participating in group music activities. When his preschool teacher announces that it is time for music, Jonathon usually screams and cries. While the other children gather together on the rug, Jonathon refuses to leave the previous activity. Jonathon’s teacher wants to implement an intervention to prevent Jonathon’s challenging behavior and promote his participation in music activities.

Questions
Imagine that you are a paraprofessional in Jonathon’s classroom. The teacher asks you to help him use choice-making to address Jonathon’s challenging behavior. Based on what you learned in the lesson, answer the following questions about this scenario.

1. Describe Jonathon’s challenging behavior.

2. When does this behavior occur?
EC-S1: Ability to deliver developmentally appropriate instructional interventions under the direction of a licensed professional for infants and young children ages 0-5 in these domains: cognitive, motor, self-help, sensory, social/play, and speech/language development.

EC-S3: Ability to prepare, adapt, and use developmentally appropriate materials under the direction of a licensed professional.

3. What is the appropriate behavior that Jonathon’s teacher would like to see?

4. How could you use choice-making to prevent Jonathon’s challenging behavior? Describe at least two ways in which you could use choice-making in this situation.
